OpenLimit Holding AG: Hermann Homann is the new Chief Financial Officer of the OpenLimit Group

(Baar, 11 August 2014) - Mr. Herman Homann will assume the position of Chief Financial Officer of the OpenLimit Group with immediate effect, replacing the outgoing CFO Christian Fuessinger, who announced his departure from the company for personal reasons back in May.

The Board of Directors and employees of OpenLimit thank Mr. Fuessinger most sincerely for his outstanding work with the company and wish him all the best for the future. Mr. Fuessinger will continue to support the company in an advisory capacity until the end of September.

Hermann Homann was born in Germany's Lower Rhine region in 1958 and has years of experience in the commercial sector as well as in the execution of projects both in Germany and abroad. After studying business in London and Reutlingen, he gathered extensive know-how in the areas of controlling, project management and corporate management. Over the course of his career, Mr. Homann has worked both as an international controller as well as a CFO, including, amongst other roles, Managing Director at adidas Sport GmbH (Switzerland) and Finotech Verbundstoffe GmbH & Co. KG. The 56-year-old's most recent role was that of Managing Director at BBA Holding Deutschland GmbH where, amongst other things, he managed the demerger for the German subgroup and was responsible for establishing the company's office.

"We are pleased to be able to welcome Mr. Homann, with his extensive know-how and his multifaceted experience, as Chief Financial Officer into the OpenLimit team. On behalf of the entire OpenLimit management and Board of Directors, we warmly welcome our new CFO on board and wish him lots of success in his new role", says CEO Marc Gurov.

About OpenLimit

OpenLimit stands for the secure electronic handshake. Our technologies enable people and machines around the world to communicate without restrictions in ways that are secure, verifiable and identifiable. We develop enabling technologies and products in the following areas: legally secure signature methods, digital long-term archiving, secure data transfer

and digital identities. Our technologies are an integral part of products from leading developers of IT applications and are used by authorities, institutions and private households. To realize our mission, we enter into carefully selected strategic development and distribution partnerships.

Publicly traded OpenLimit Holding AG (symbol: 05H) as well as an operating subsidiary are located in Baar, Switzerland. Another subsidiary is located in Berlin, Germany. The group of companies employs more than 65 highly qualified people.
