Corporate News

A one-stop shop for secure electronic workflows – KDRS and OpenLimit provide the full functionality of the eID Server to public authorities in the German State of Baden-Württemberg.

Baar, 20.01.2011

KDRS/RZRS Baden-Württemberg and OpenLimit pool their respective fields of competence to create a unique technology solution.

Baar, January 20th, 2011 — KDRS/RZRS Baden-Württemberg and the electronic signature expert OpenLimit have signed a cooperation agreement. OpenLimit's e-signature products, the new eID service and its technology solutions for reliable and legally binding long-term storage of documents are from now on available as a unified solution provided directly by KDRS and the data center. This collaboration is unique in the Federal Republic of Germany and represents a truly outstanding type of partnership.

"The application of security technologies from OpenLimit and its partners in the context of the new ID card is going to improve and expand the variety of solutions offered by KDRS and will have an impact far beyond the borders of Baden-Württemberg", said Frank Wondrak, chairman of the executive board at KDRS/RZRS. "The cooperation agreement is of an outstanding nature for OpenLimit because it comprises all the latest technological developments of the company, including our unique competence with respect to the new German eID card" said Peer Dietrich, member of the executive board at OpenLimit SignCubes AG. An encouraging number of concrete initial customer inquiries concerning the new product offering as for instance the eID service have already been logged. Both partners will be present at the upcoming event of the German Association of Cities in Baden-Württemberg and afterwards at this year's CeBIT in Hannover to provide prospective customers and the public with further information about their new cooperation and product portfolio. For this purpose a jointly developed product flyer has been released, describing the eID server of the German eID card and further related technology solutions offerings.

About KDRS/RZRS:

The company association Kommunale Datenverarbeitung (KDRS) and Rechenzentrum Region Stuttgart GmbH (RZRS) is a modern IT service provider focused on the public sector with a market share of nearly 100% in the Stuttgart area. The data center serves municipalities in Baden-Württemberg with a complete product portfolio for municipal IT infrastructure.
